

## New Gold Room Facilities

The gold rooms OL1, OL7, CLT, H0.01 and the ICLT have had a partial upgrade of the AV facilities.

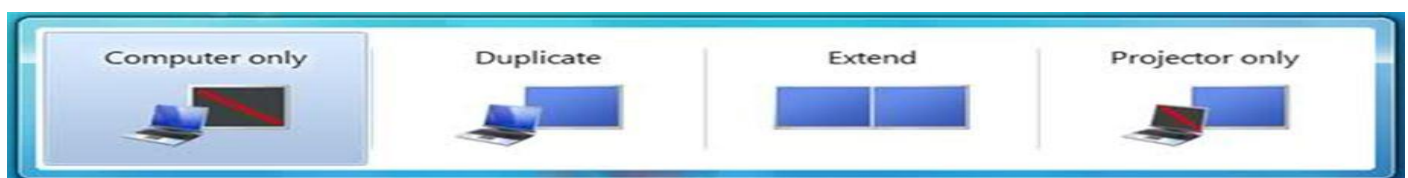

Please feel free to call in to the lecture theatres or contact the ICT Service Desk to arrange a demonstration of the following facilities to help you get to know them, and the new layout before the first day or term.

### New facilities to supplement your teaching include

- Presenter mode in PowerPoint (details below)
- Touch screen interactive panels (details below)
- A more ergonomic lectern with swivel screen
- A simpler and more intuitive control panel with real buttons

### Presenter mode for PowerPoint

Using the Windows key and P will display this screen.

The default is Duplicate to show the same image on the lectern panel and the big screen but if you select Extend and use PowerPoint you will be able to see your notes while the students just see the slides.

### Touch screen interactive panels

Use your finger or the old style interactive pens as a mouse and to operate Active Inspire.

Use the Microsoft Surface multi-touch enabled applications such as Collage or the globe.

See [Video one](#) and [Video two](#)

You can also use your fingers to drive internet explorer and use the onscreen keyboard.
