

Installing SPSS v26 (Windows)

1. To download SPSS, log into <https://unity.tees.ac.uk> and select **My University** from the side menu.

2. Select Software Downloads

3. From the Software Downloads page, download SPSS v26 (windows) and the SPSS V26 Serial Code.

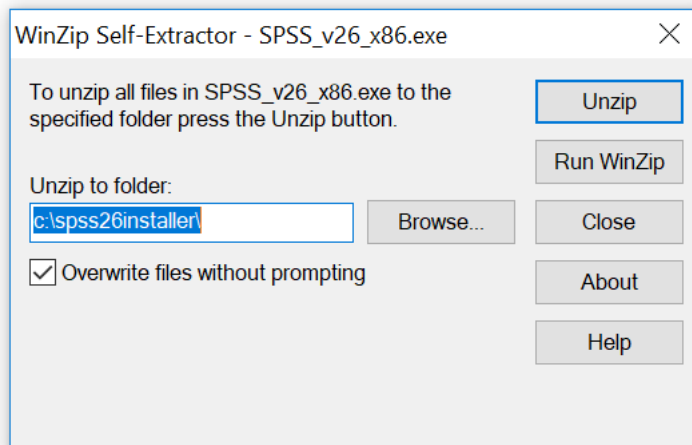

SPSS v26 (Windows)	Staff and Student tool for statistically analysing data	Staff, Students	Download	Download
SPSS v26 Serial Code	Serial code required for SPSS v26 installation	Staff, Students		Download

Installing SPSS v26 (Windows)

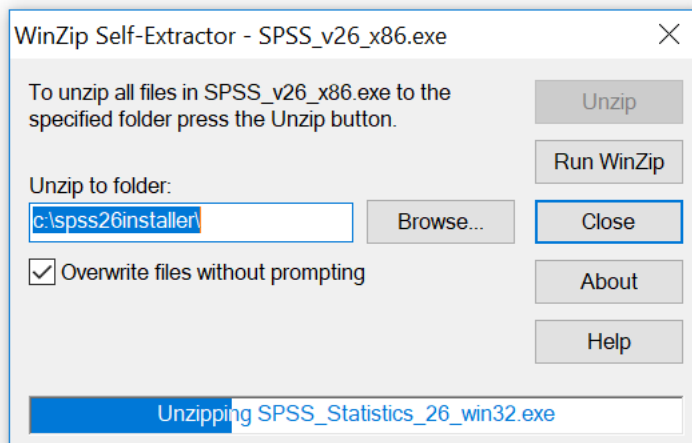

4. Navigate to the location where the files were downloaded, double click the SPSS install file.

<input type="checkbox"/> Name	Date modified	Type	Size
<input checked="" type="checkbox"/> SPSS_v26_x86	13/08/2019 16:00	Application	554

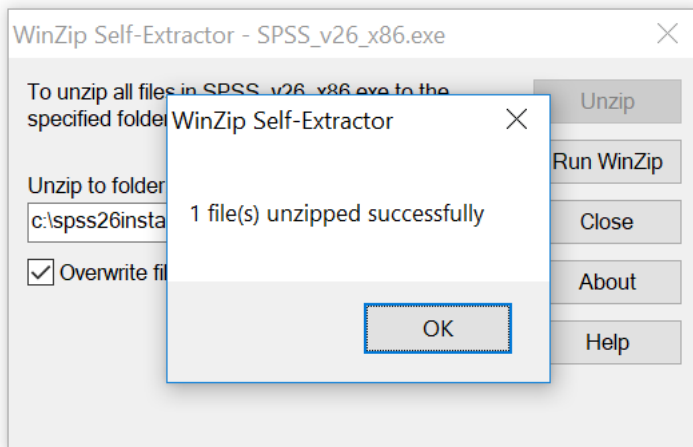

5. The following windows will show, click on Unzip and extract the files to a location on your computer, the example shows the folder as c:\spss26installer\, but you can click browse and choose your own location.

6. The files will then extract to the location chosen.

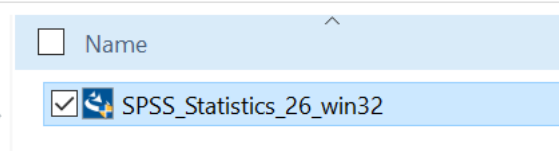

7. Once completed it will show the following screen. Then click close

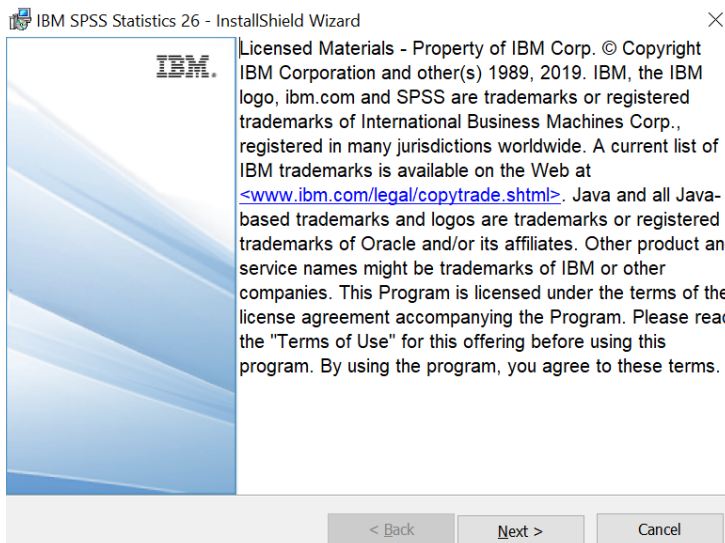

- Next navigated to the location the files were extracted too, for this example we will use C:\spss26installer\

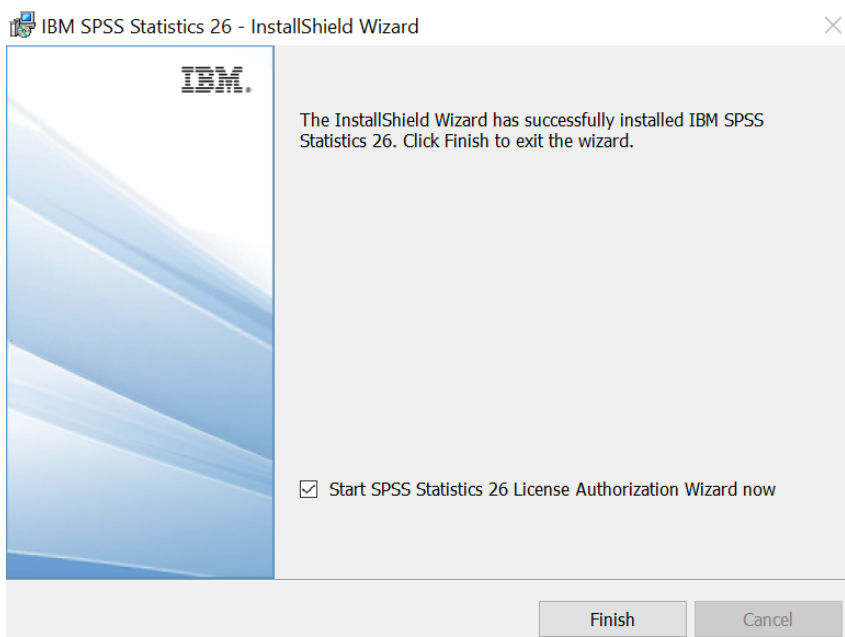

his PC > OSDisk (C:) > spss26installer

- Run the file you extracted. For example, in this instance we would run "SPSS_Statistics_26_win32"
Make sure you are connection to the Internet before running the setup Application.
- NOTE: Installation can take some time so please be patient.
Continue the installation you will have to accept any license agreements and leaving the default selections until you get to license SPSS.

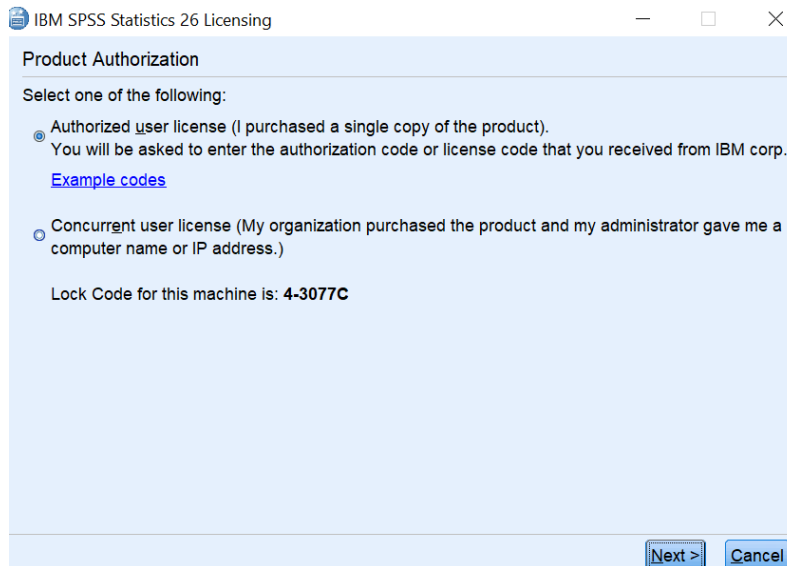

- Once completed you will see the following page. Make sure to check the box marked "Start SPSS Statistics 26 License Authorization Wizard now".

14. To license the software, this requires an internet connection.

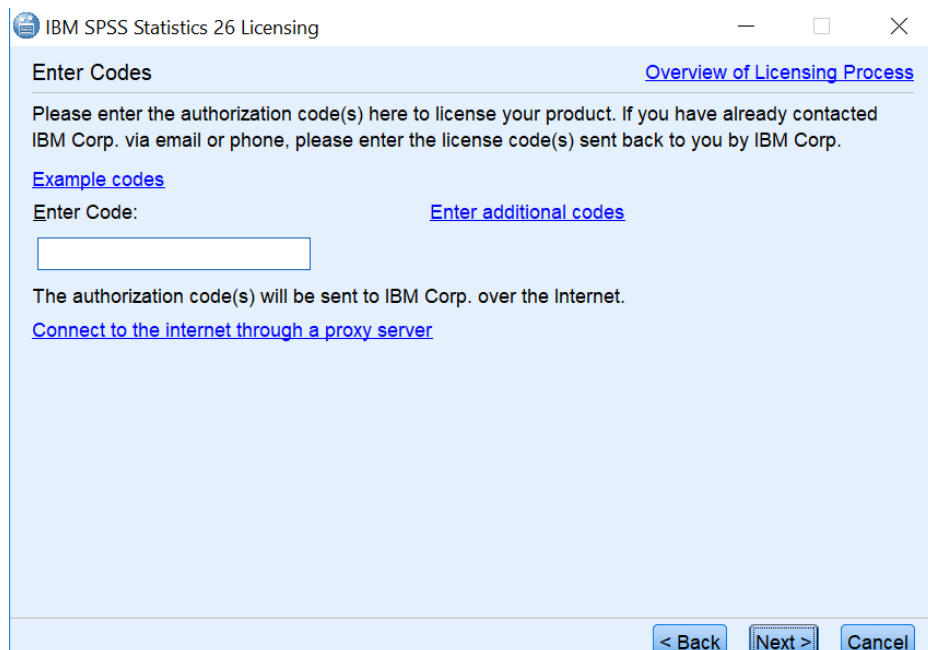

The IBM SPSS Statistics License Authorization Wizard will load up
(Choose the 1st option “Authorized user license” checking the 2nd option will cause issues while licensing.)

Click Next

15. The following page will open click Next.

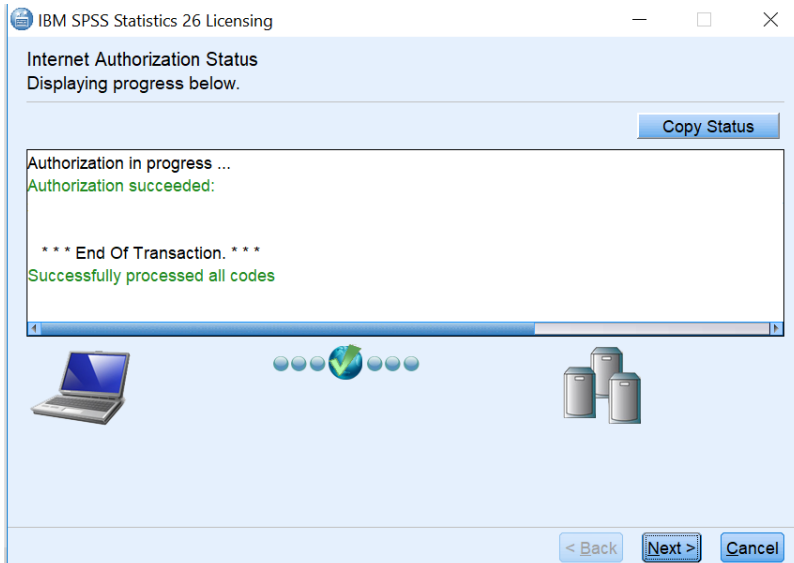

Enter the license key or copy and paste the license key from the SPSS v25 Serial Code file that you downloaded and click on Next

Installing SPSS v26 (Windows)

16. If you are not connected to the internet this part will fail and SPSS will not be licensed

If you see the following screen below, SPSS will be now successfully licensed, click on Next to continue.

17. Click finish to complete installation, this page will show the version of SPSS and features that are licensed.
